## P10 Outdoor DIP LED Module Presentation

*Your Vision,  
our Visual Solution!*

# 1.About us

*Flinky has been specialized in LED field since 2014, is a globally leading LED video wall supplier based in Shenzhen, China. To meet the high quality demand of our customers over the world, we have established the modern LED display manufacturing equipment in our LED display factory. Flinky focuses on the R&D, production, sales and service of LED full color display, and provide full-service of product solutions since it has founded. With the development, Flinky has accumulated rich experience of R&D and has the first-class automated production equipment, standard clean automation production plant and anti-static system devices.*

## 2. Specification

Item	Parameter
Pixel Size and Configuration	P10mm RGB DIP346
LED Module Size	160*160mm
Resolution	10000dots per s.qm
Scan Way	1/4S
LED Module Current	Constat Current
LED Module Resolution	16*16dots
Waterproof	IP65
Grey Grade	16384 Levels for Each Color
White Balance	Around 6800cd per s.qm
View Angle(H/V)	110/50 Degree
Refresh Rate	1920 Hz
Power Consumption(Avg./Max.)	250w / 800w per s.qm
MTBF/Lfespan	100000hrs

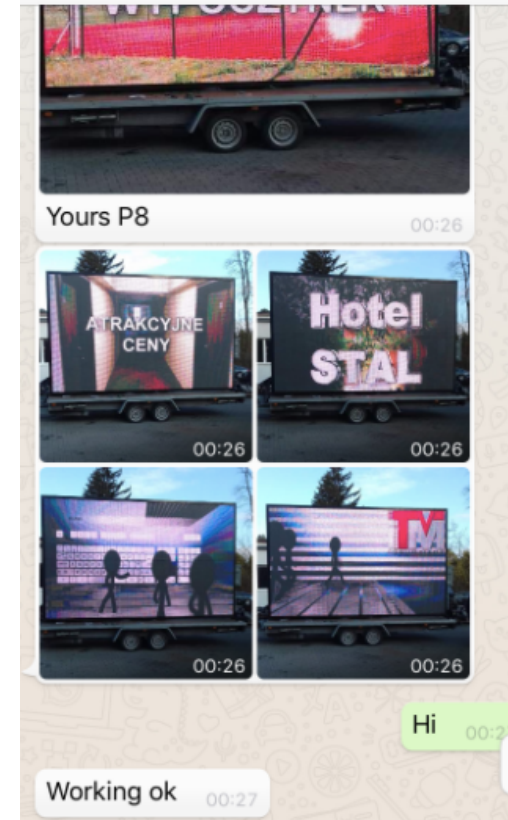

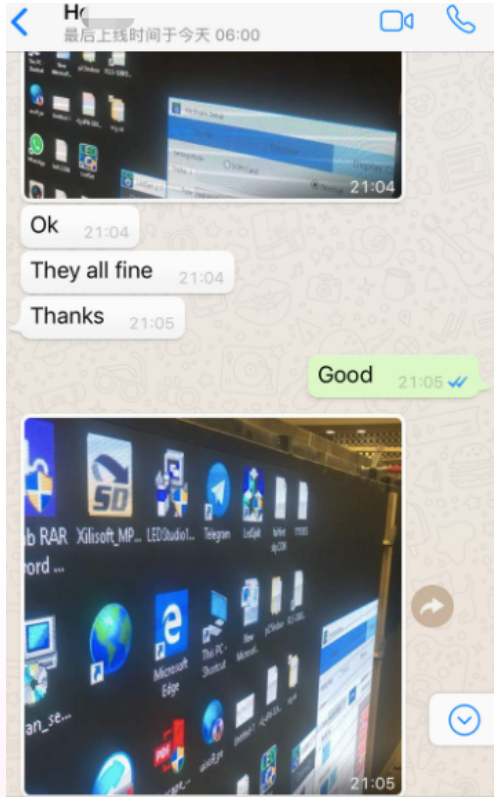

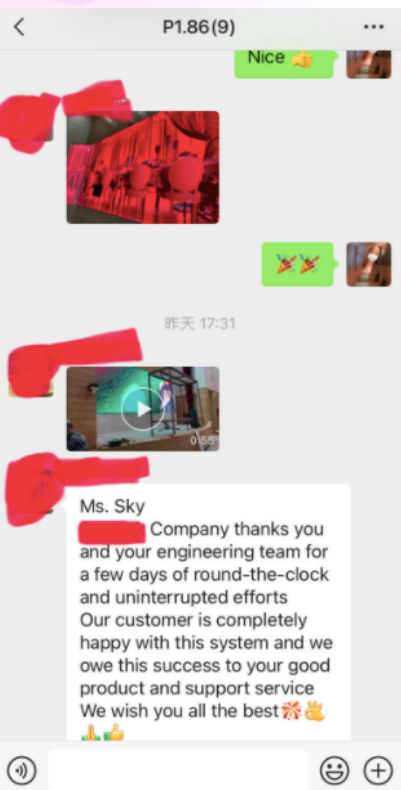

## **3.Features**

- Separate driving board ensures good heat dissipation.
- New developed mold for plastic covers,hence,smaller modules gap and better screen flatness.
- Reasonable PCB design makes the module reliable and steady.
- High-performance waterproof and dustproof capabilities above IP65.
- Exact control technology of brightness ratio of red, green and blue basic colors makes perfect white balance performance.
